

Serial No. 10/705,324

IN THE SPECIFICATION

Page 1, lines 16-21 have been amended as follows:

2. When exposed to ~~[[the]]~~ sunshine for a long time, the clotheshorse made of plastic material will deform and become brittle whereby the ~~using~~ useful life of the clotheshorse is short. Thus, when not in use, the clotheshorse should be put in a room and shielded from sunlight. However, because it is difficult to detach the arms, the non-collapsed clotheshorse with a large overall size will occupy a great amount of space.

Page 4, line 23 through page 5, line 3 have been amended as follows:

With reference to Figs. 7-8, in another embodiment of the present invention, the arm (~~[[20]]~~ 20a) has a ring (23) formed at the front end thereof. When two clotheshorses of the invention are mounted on the clothes-airing frame, a clothes bar (~~[[23]]~~ 40) or a clothesline (not shown) can be attached between two opposed rings (23) of the two ~~clothes-bar (23)~~ arms (20a) for hanging more clothes.
